

WindsorPatania

Senior Architect

Full Time Role

Senior Architect - Job Description

We are seeking a highly skilled and experienced Senior Architect to join our dynamic practice. As a Senior Architect, you will play a crucial role in leading and managing architectural projects, collaborating with multidisciplinary teams, and providing innovative design solutions. This is an excellent opportunity for a talented professional who possesses a passion for architecture and a proven track record of delivering exceptional projects.

Responsibilities:

- **Project Leadership:** Lead and manage architectural projects from conception to completion, ensuring adherence to project goals, budget, and timeline. Take responsibility for project planning, design development, construction documentation, and coordination with clients, contractors, and consultants.
- **Design Expertise:** Develop creative and innovative design concepts that align with client requirements, project objectives, and industry standards. Utilize your extensive knowledge of architectural principles, materials, building codes, and construction techniques to deliver high-quality designs.
- **Team Collaboration:** Collaborate effectively with multidisciplinary teams, including engineers, interior designers, landscape architects, and contractors. Foster a collaborative environment to facilitate efficient coordination, communication, and integration of various design elements.
- **Technical Proficiency:** Demonstrate advanced proficiency in architectural software and tools, including AutoCAD, Revit, SketchUp, and Adobe Creative Suite. Utilize these tools to create accurate and comprehensive architectural drawings, presentations, and documentation.
- **Client Engagement:** Engage with clients to understand their needs, objectives, and aspirations. Present design concepts, address client feedback, and ensure client satisfaction throughout the project lifecycle. Cultivate and maintain strong client relationships, fostering repeat business and referrals.
- **Quality Assurance:** Conduct thorough quality assurance reviews to ensure compliance with design intent, technical standards, and regulatory requirements. Implement best practices and identify opportunities for improvement in project delivery processes.
- **Mentorship and Leadership:** Provide guidance and mentorship to junior architects and architectural staff, fostering their professional growth and development. Act as a thought leader within the organization, staying abreast of industry trends, emerging technologies, and sustainable design practices.

Requirements:

- **Education and Experience:** A bachelor's or master's degree in Architecture from an accredited institution is required. A minimum of 8 years of professional experience in architectural design, with a focus on project leadership and management, is essential. Licensure as a registered architect is preferred.
- **Design Portfolio:** A comprehensive portfolio showcasing your design expertise and project experience is required. The portfolio should demonstrate a range of project types, design styles, and construction stages.
- **Technical Skills:** Proficiency in architectural software tools, including AutoCAD, Revit, SketchUp, and Adobe Creative Suite, is essential. Experience with BIM (Building Information Modeling) and sustainable design practices is highly desirable.
- **Leadership Abilities:** Proven leadership abilities with the capacity to lead and inspire teams. Strong organizational and time management skills to manage multiple projects simultaneously and meet deadlines.
- **Communication Skills:** Excellent verbal and written communication skills to effectively collaborate with clients, team members, and stakeholders. Ability to present and articulate design concepts clearly and convincingly.
- **Problem-Solving:** Strong analytical and problem-solving abilities to identify and address design challenges, technical issues, and project constraints effectively.
- **Industry Knowledge:** A comprehensive understanding of architectural trends, industry best practices, building codes, regulations, and construction processes.
- **Strong Design Skills:** Your ability to envision creative and innovative architectural solutions will be critical in delivering outstanding designs that exceed client expectations.

Join our practice as a Senior Architect and contribute your expertise to create remarkable architectural designs that shape the built environment. Together, we can make a lasting impact through excellence in design, innovation, and client satisfaction.
